  - 2011 3.1 (increased # of EC donors)
- Donor age range from
  - 2010 3 - 68 years (aver. 30yrs)
  - 2011 28-68 years (aver. 50 yrs)

# Continuing to improve

- **Stats - Jan. 2011- Dec. 2011**
- 10 Multi –organ donors
- 31 organs retrieved and transplanted

# Newfoundland Cornea Stats

- Referrals 83 (increased rate sepsis)
- 15 refused
- 13 donors
- 26 corneas
- 18 transplanted, 8 used for education
- 69% transplanted ( national average 50-60%)

# New Initiatives:

Accessing Various Established Educational Services

- Presenting at Nursing Grand Rounds
- Presentation for ARNN
- Increasing corporate communications coverage of National Organ/Tissue Donor Awareness Week
- Great response to pamphlets included in MCP mail outs

# Fiscal Restraint

How to get the message out?  
Limited Resources from government  
for Travel ...Education

Increasing use of technology such as:

- Webinar
- Teleconference
- Telenet

# Future Initiatives

- Provincially broadcasted education Day ?spring 2013 ? Webinar ?Telenet
- Continue to reinforce present education sessions such as corporate orientation, ICU/ER nurse orientation, ICU residents, ER physicians academic half day etc.

# Heart Valve Agreement

- In the final stages
- Hopefully ready to start be spring 2013

# Thanks
