

Collaborative care in Transplantation & Donation

October 10, 2012

Ian Alwayn, MD, PhD

Department of Surgery

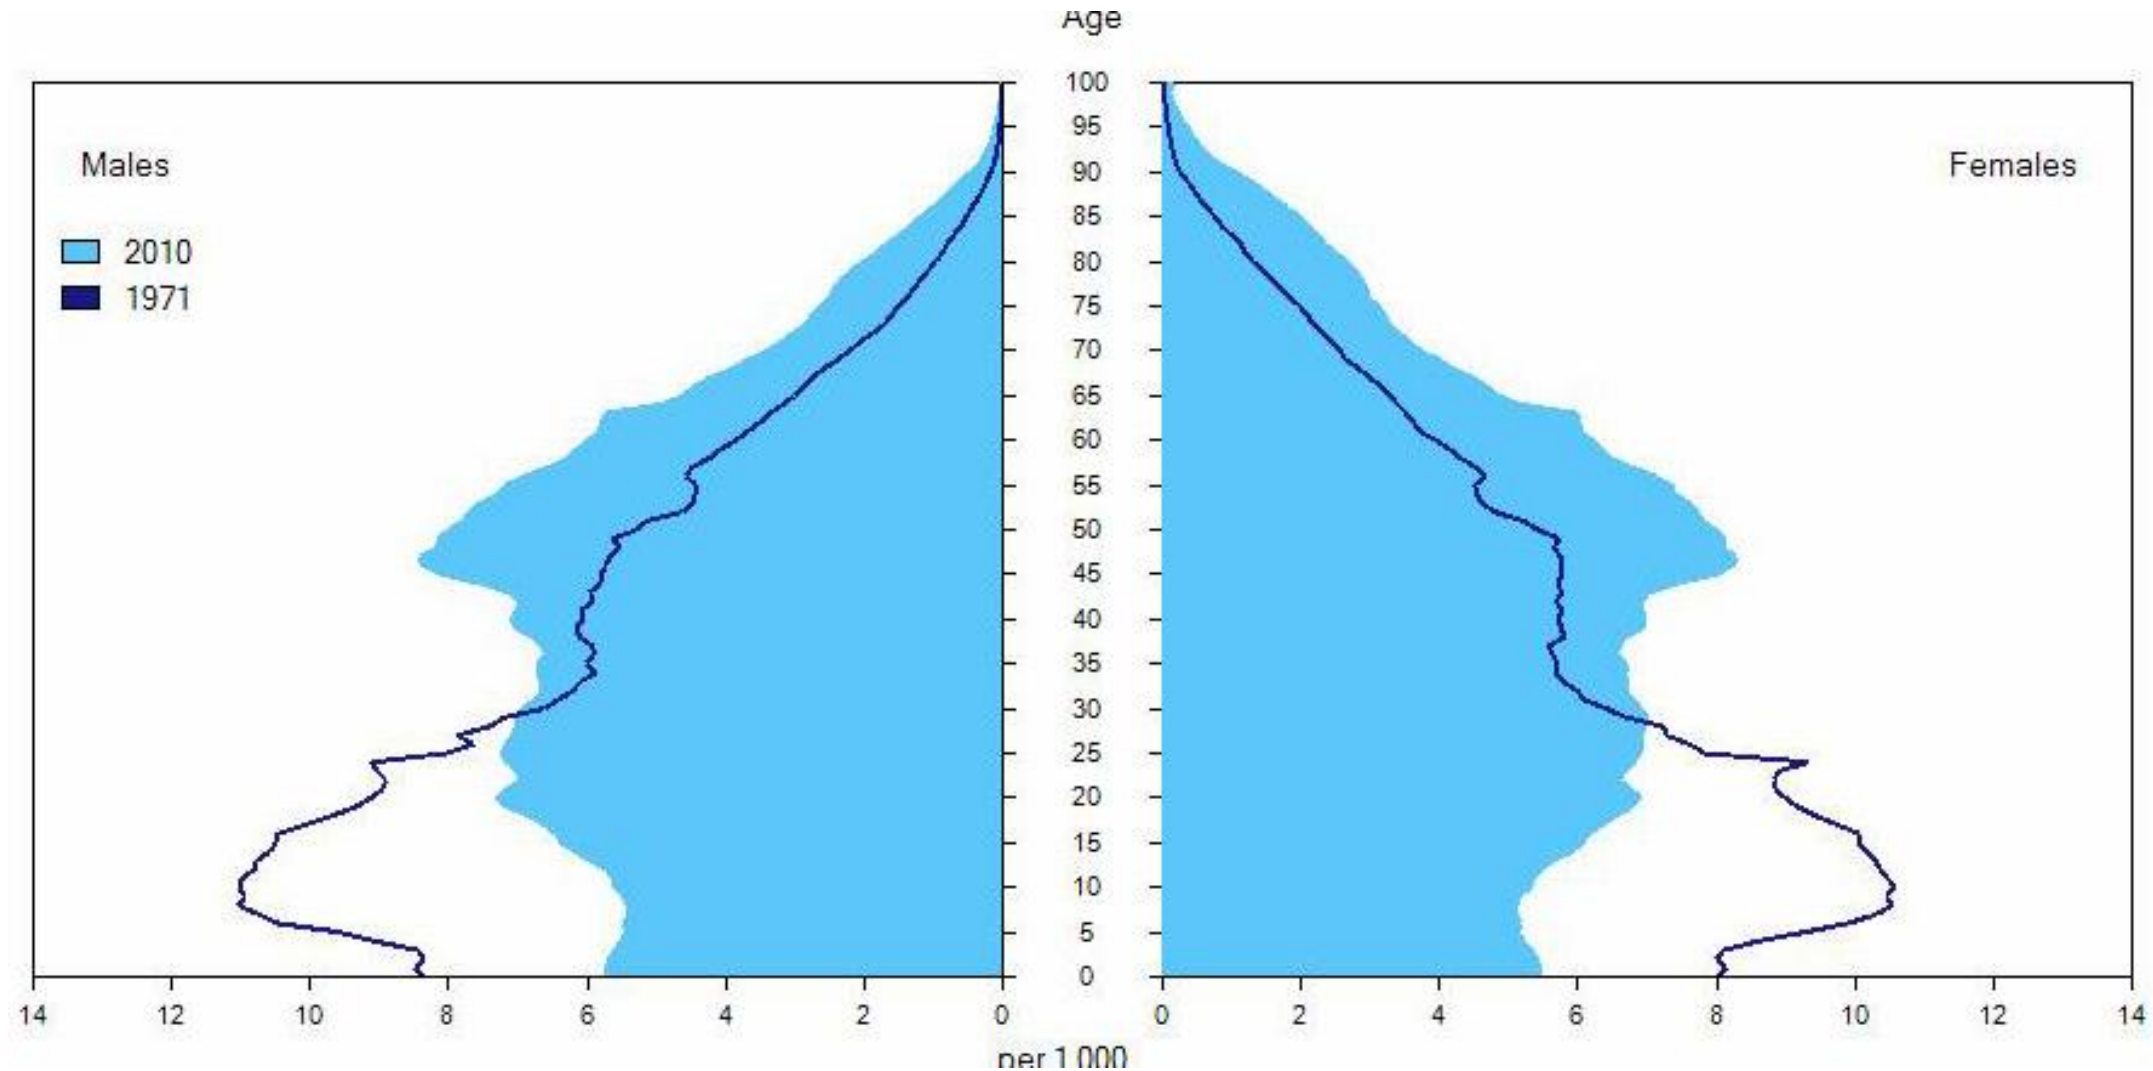

Multi Organ Transplant Program

Dalhousie University / QEII Health Sciences Center

Halifax, NS

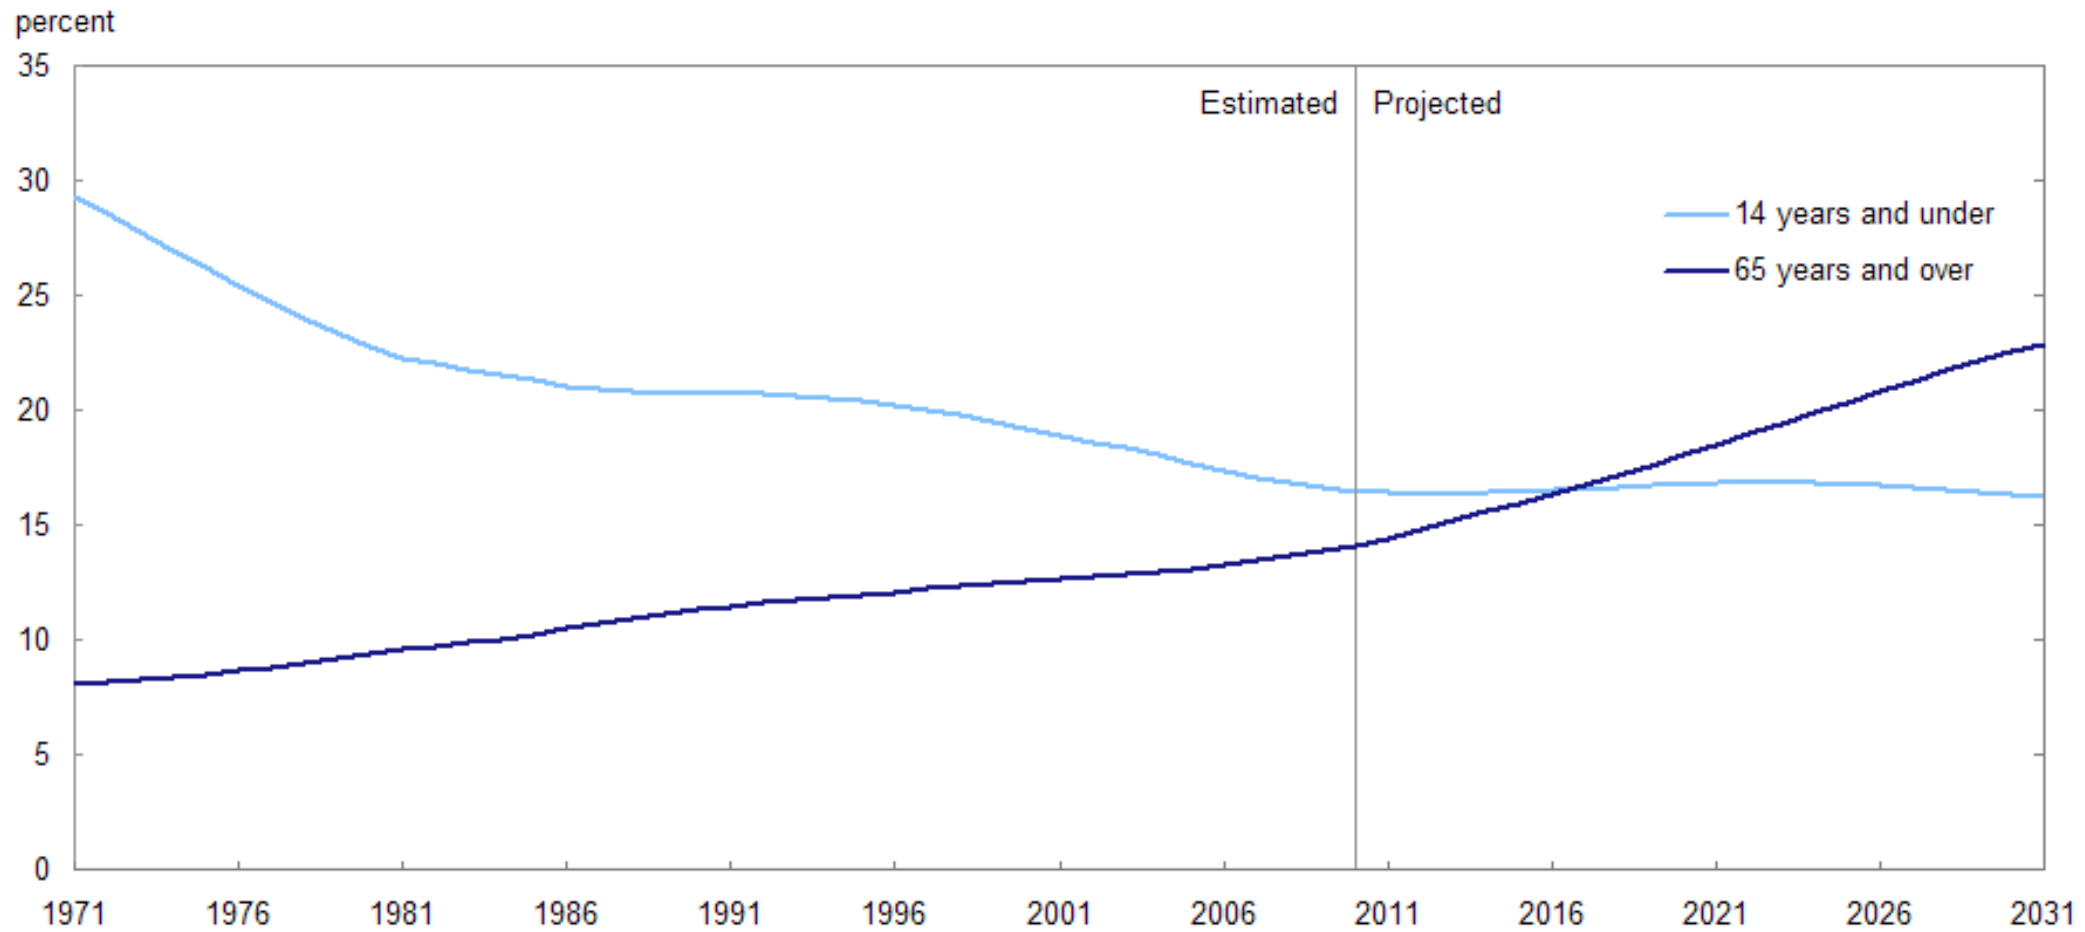

Ageing population

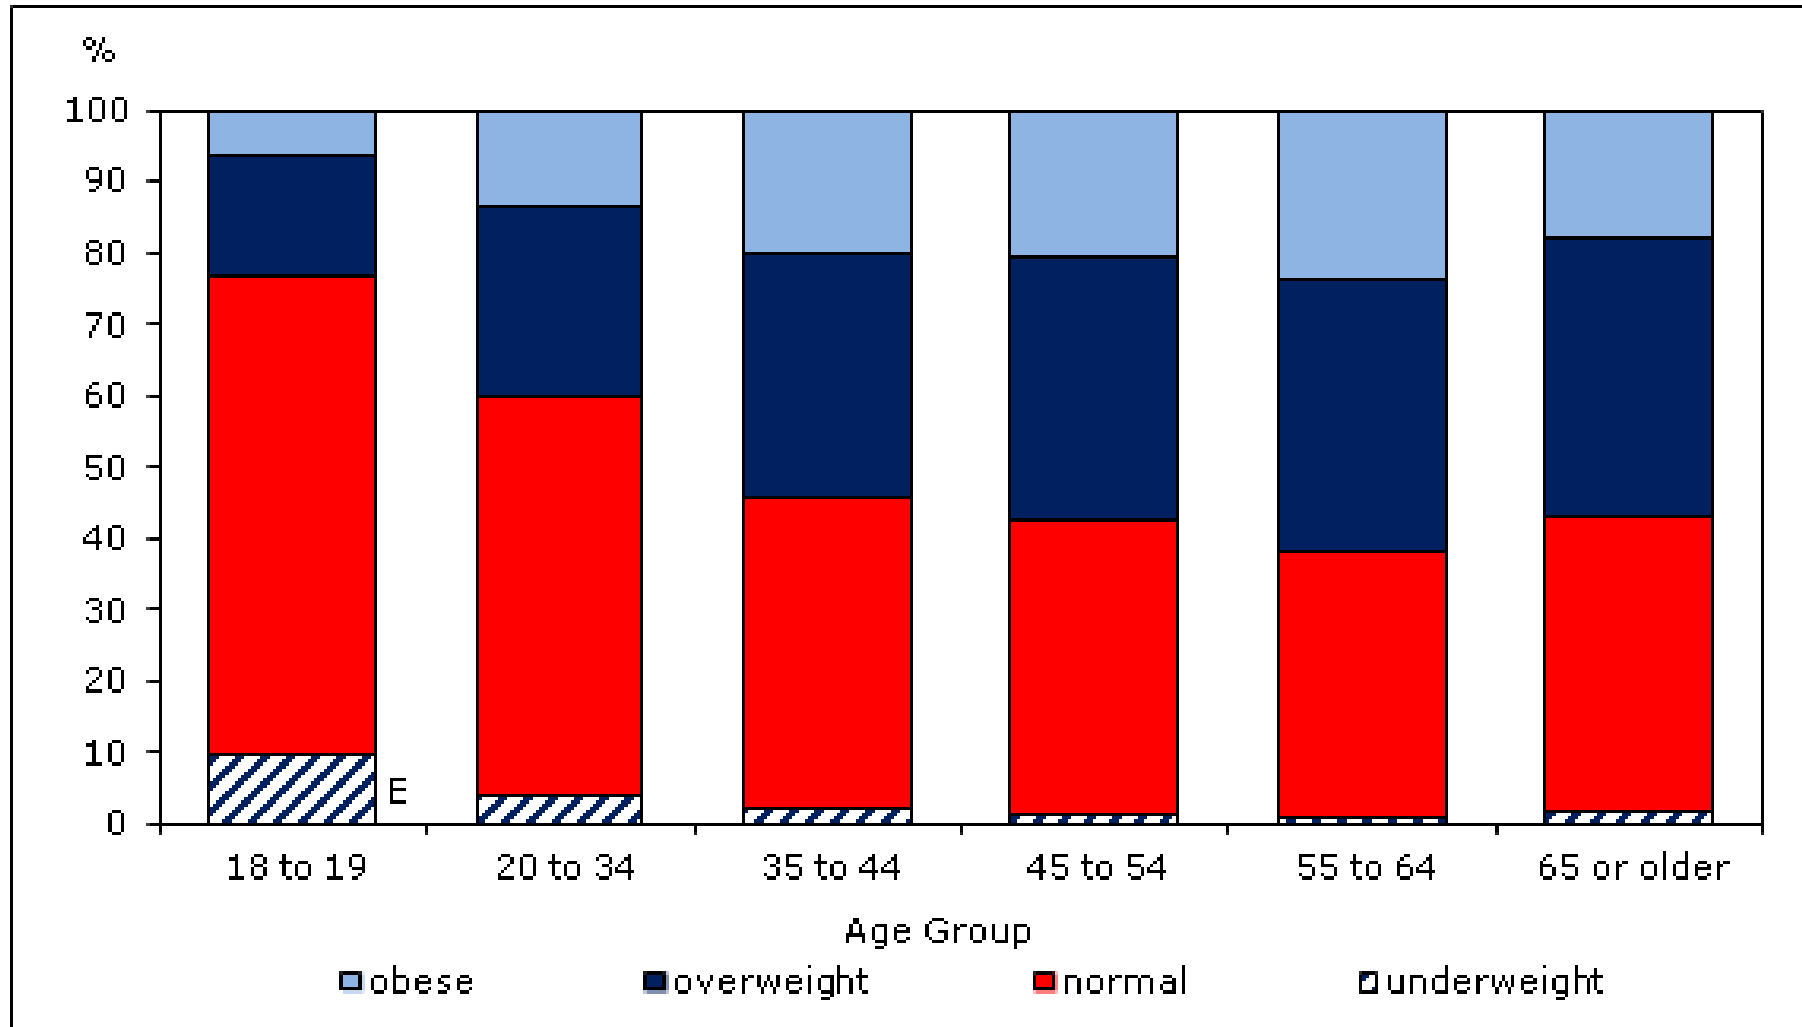

Ageing population

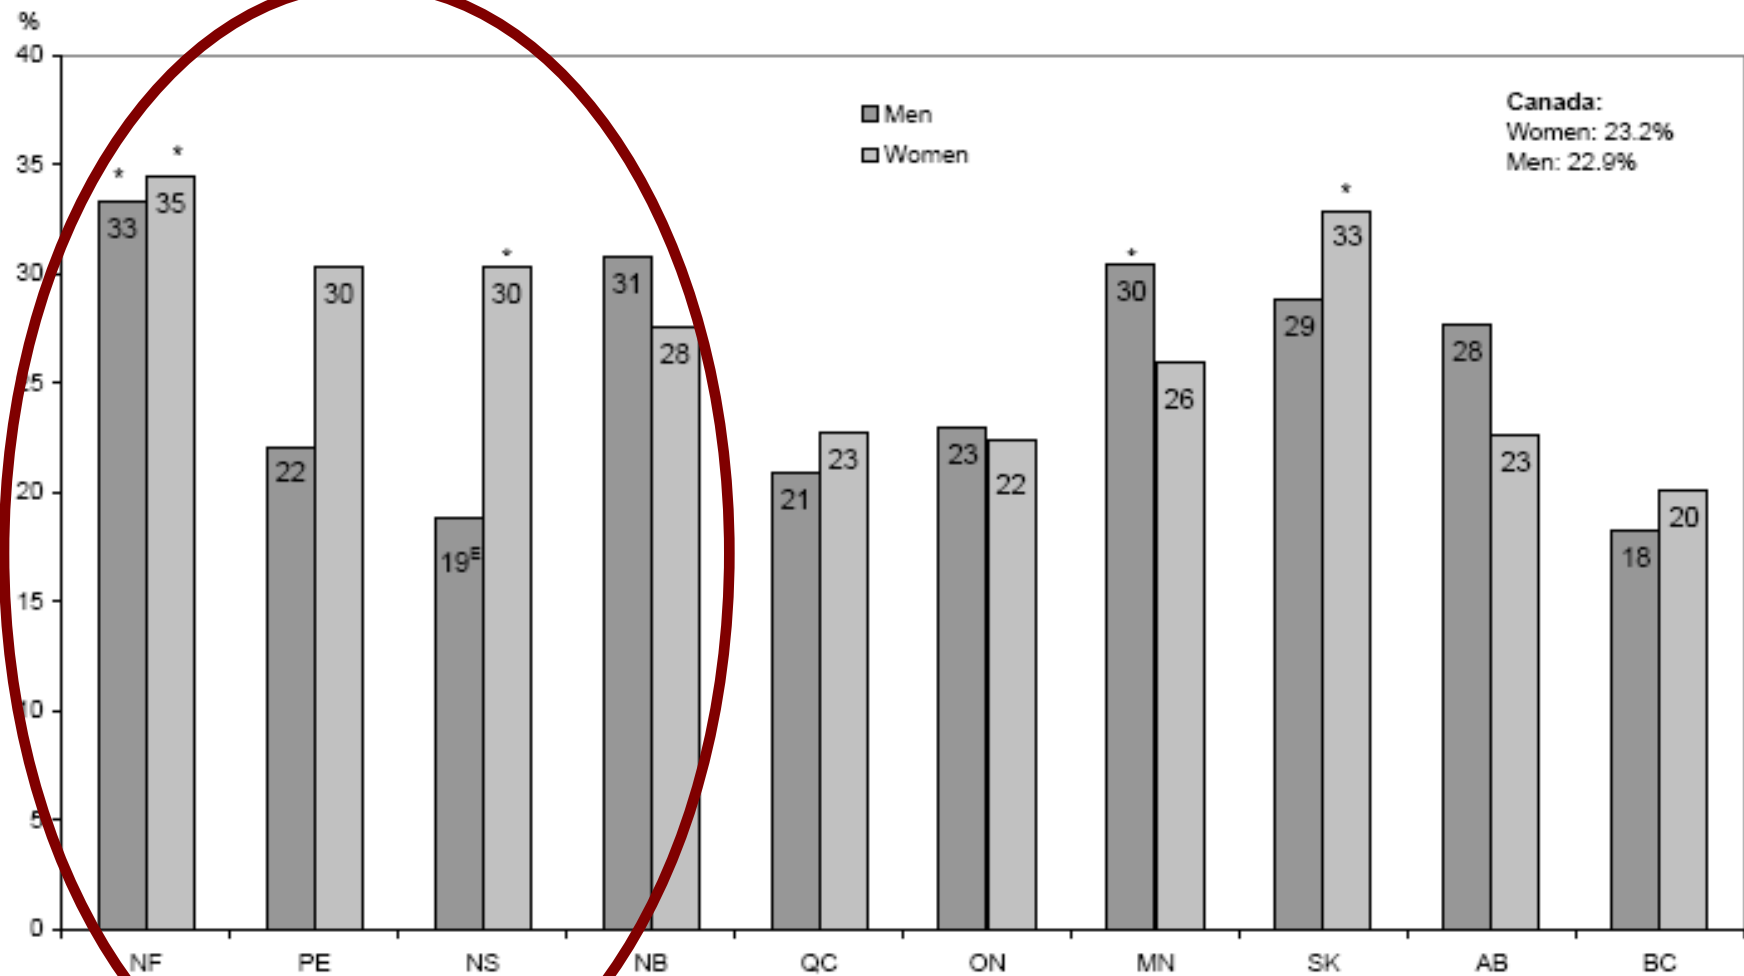

Obesity in Canada

Obesity in Canada

Data source: 2004 Canadian Community Health Survey: Nutrition

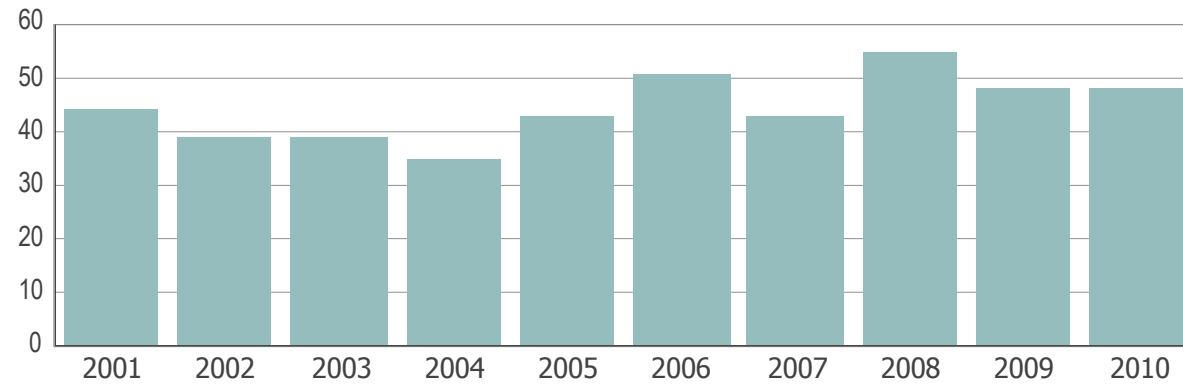

* Significantly different from estimate for Canada ($p < 0.05$)

^E Coefficient of variation 16.6% to 33.3% (Interpret with caution)

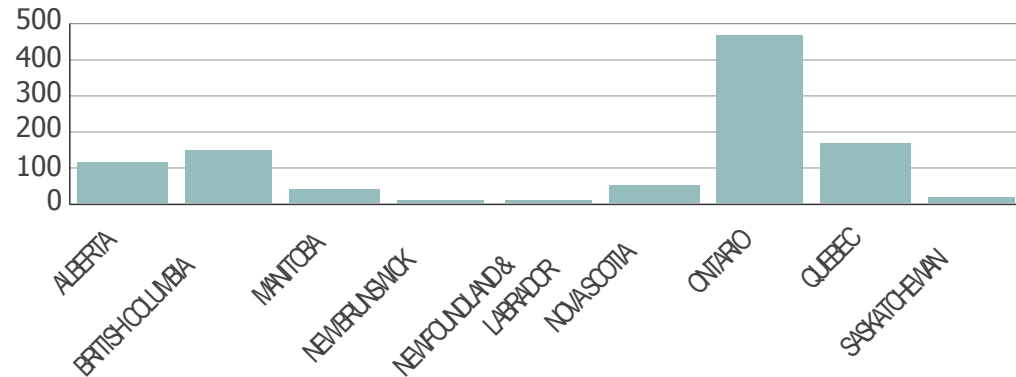

Nova Scotia donors

NOVA SCOTIA, <All>
Over Time (By Donation Year)

<All>, 2010
Across Canada

Organs transplanted per donor

Table 3 Mean Number of Organs Transplanted per Deceased Donor by Region and Age Group, Canada, 1999 to 2008

		1999	2000	2001	2002	2003	2004	2005	2006	2007	2008
West	0–54	3.9	3.8	4.1	4.1	4.0	4.4	4.5	4.6	4.3	4.1
	55+	2.8	2.5	3.1	3.1	3.3	2.9	3.8	2.9	3.8	3.1
Ontario	0–54	3.6	3.7	3.7	4.0	4.0	4.0	3.9	4.0	4.0	3.8
	55+	2.6	2.4	2.9	2.9	2.7	2.7	3.1	2.7	3.1	2.9
Quebec	0–54	3.8	3.7	3.6	3.8	4.0	3.6	3.8	4.1	3.8	3.9
	55+	2.4	2.5	2.3	2.9	2.3	2.6	2.4	2.8	2.7	2.7
Atlantic	0–54	4.3	3.4	4.0	3.8	3.9	3.7	4.4	4.2	4.0	4.7
	55+	2.3	3.0	3.0	2.6	3.4	2.8	2.6	2.7	3.1	3.2

How can we improve?

- **Support donation initiatives!**
- **Develop and optimize practices in donation and transplantation**
- **Encourage collaboration with stakeholders**
