

2014 Year End Review

2014 Transplants

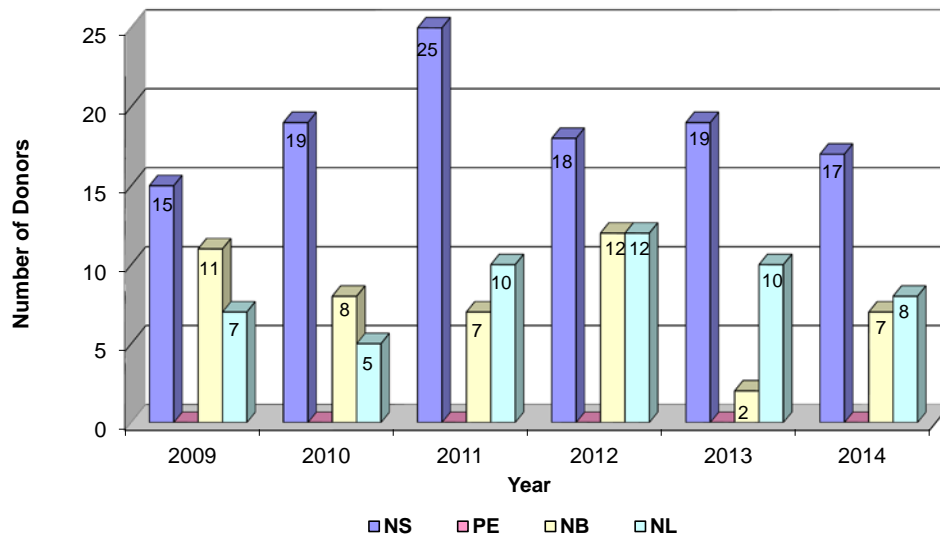

Number of Patients on WaitList as of 2014.12.31

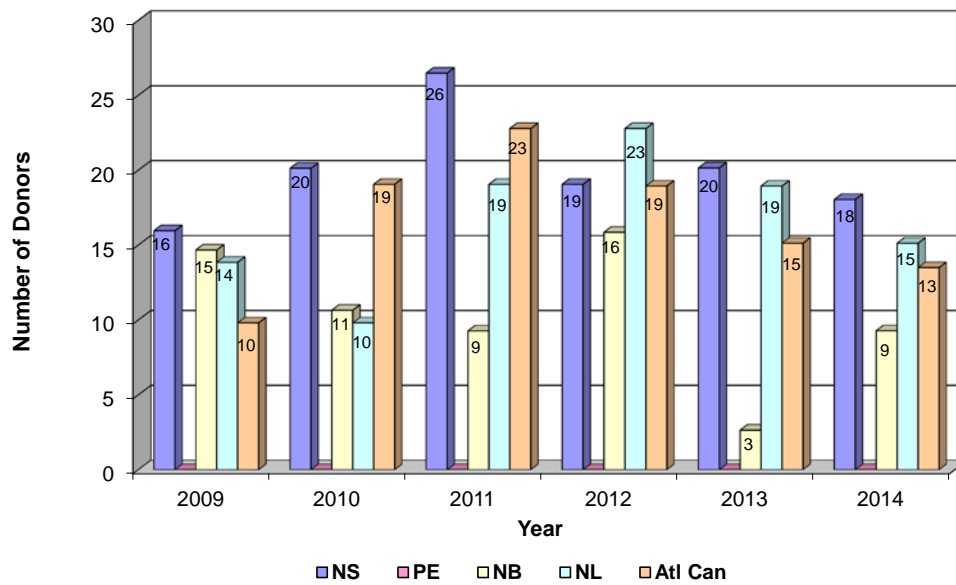

Organ Donor Statistics

Atlantic Canada DBD Donors by Reporting Province of Death

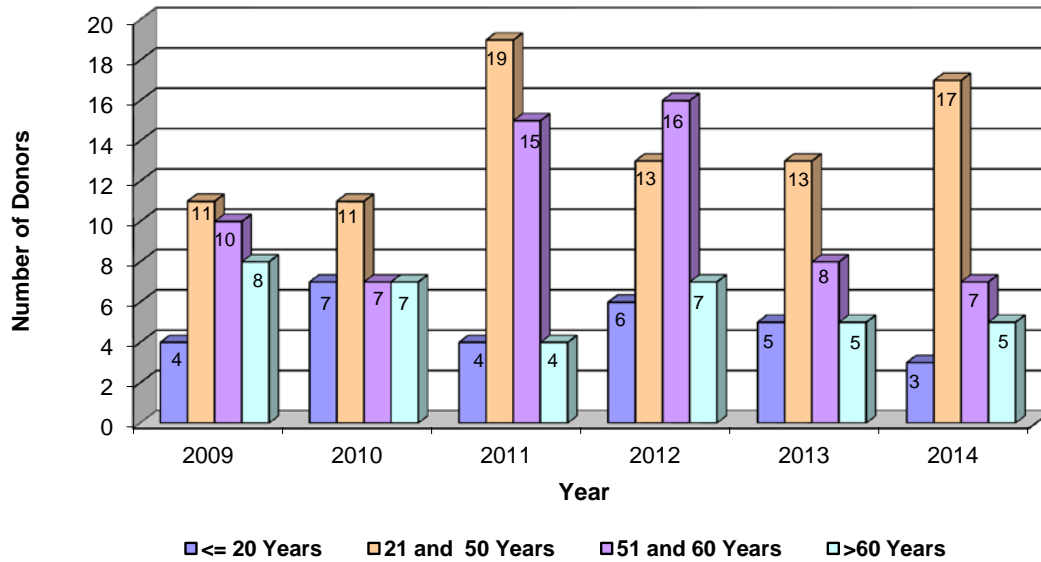

Atlantic Canada DBD Donors Per Million by Province

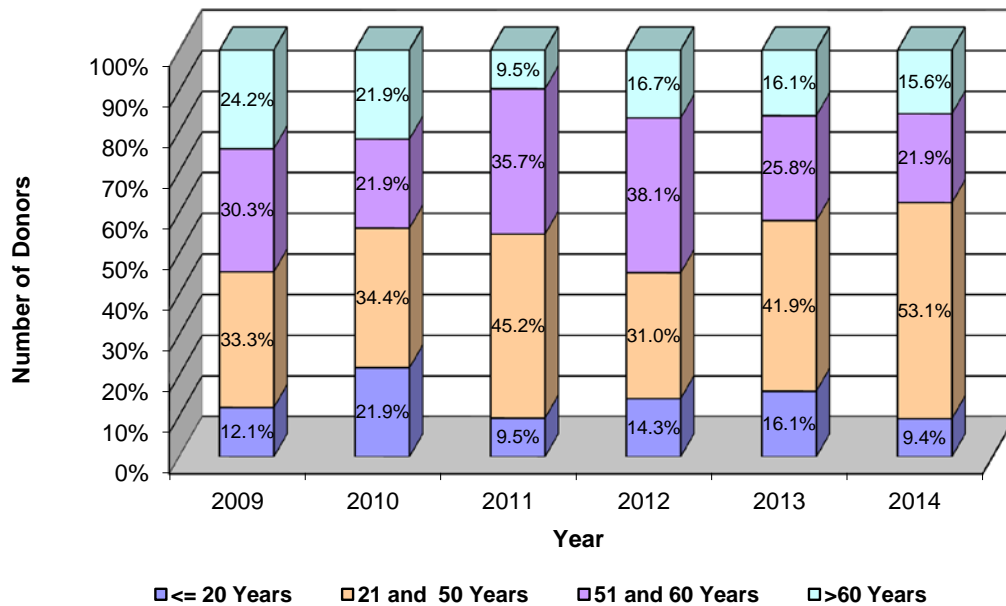

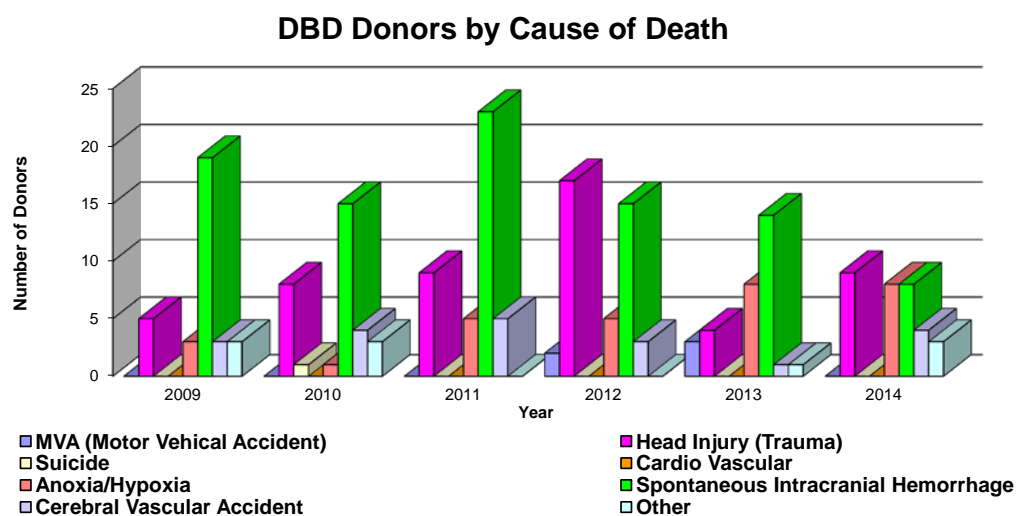

* DBD - Donation After Brain Death

DBD Donors by Age

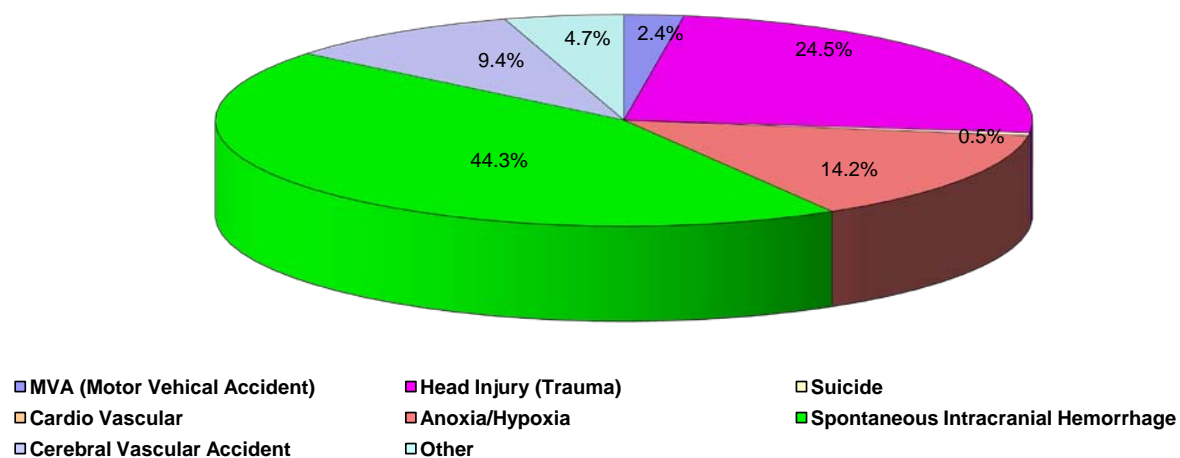

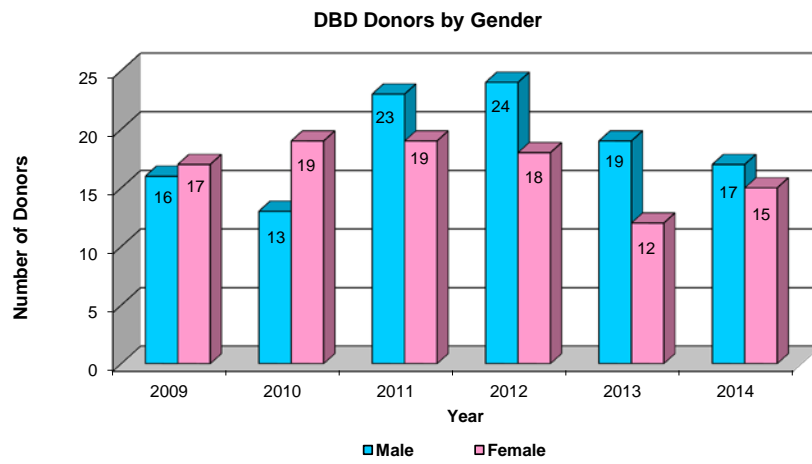

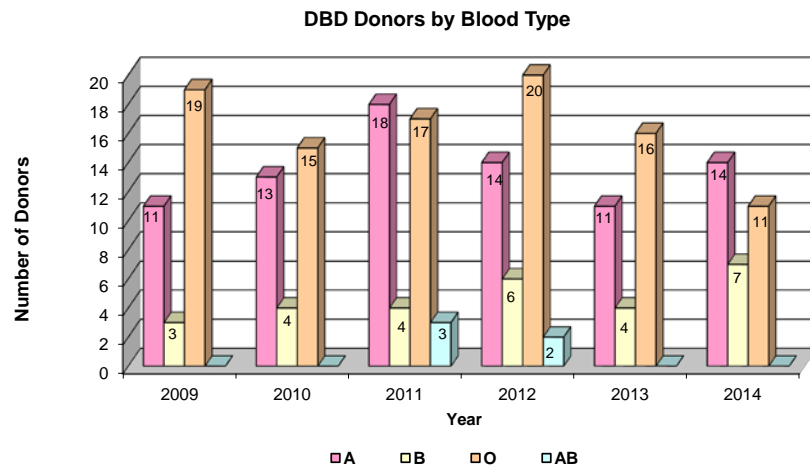

DBD Donors by Age (in percentage)

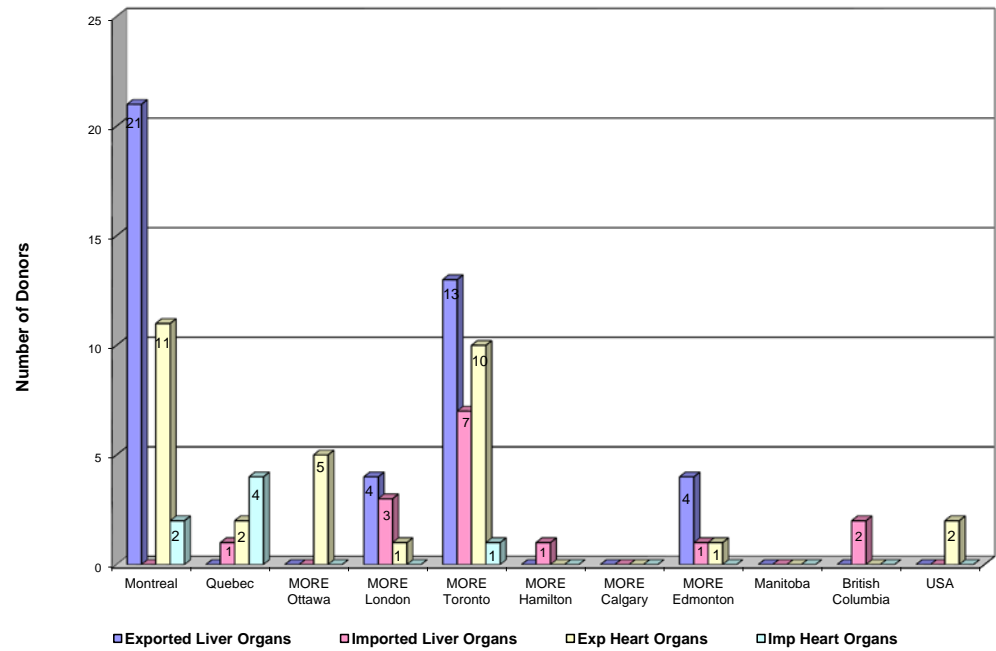

DBD Donors by Cause Of Death (2009-2014)

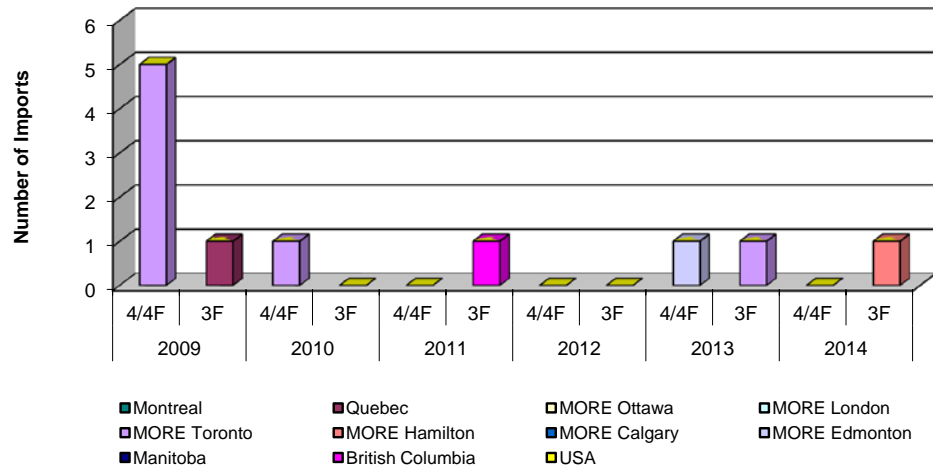

DBD Donors Organs Exported / Imported (2010-2015)

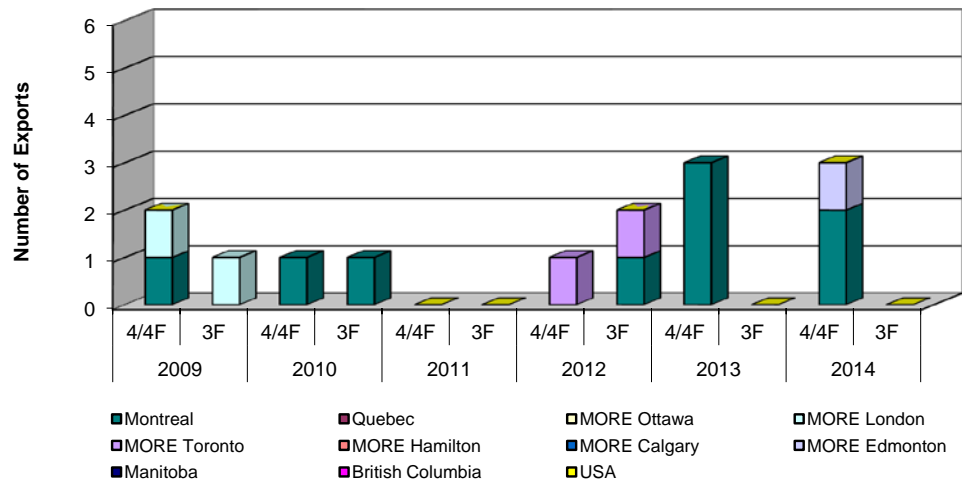

Liver Allocation (Import for High Status)

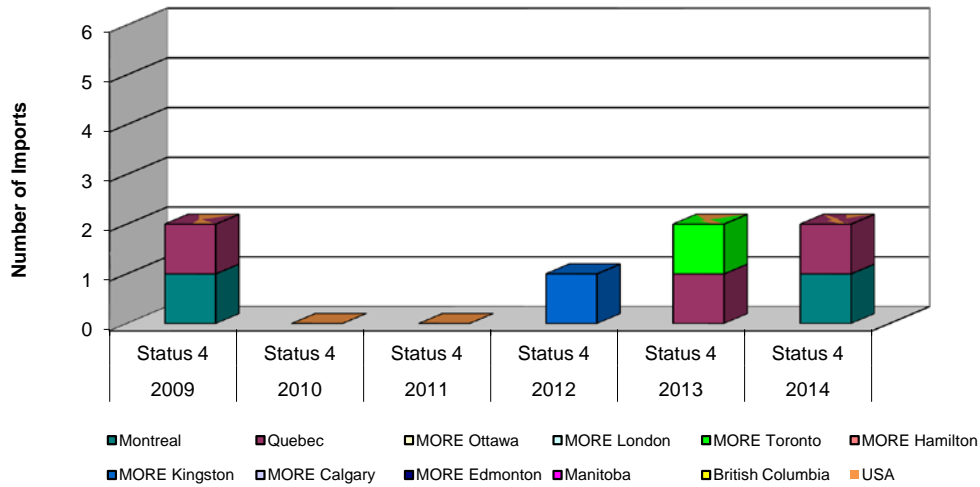

* See Appendix A for Medical Status Description

Liver Allocation (Export for High Status)

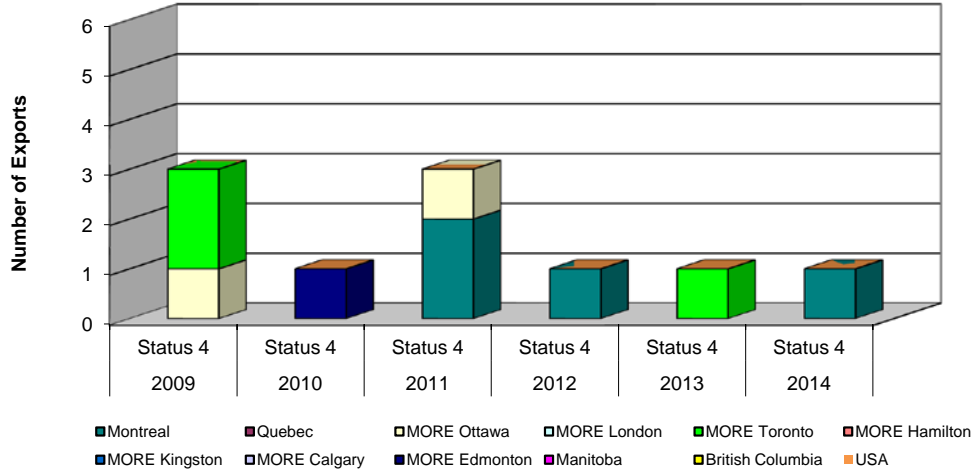

* See Appendix A for Medical Status Description

Heart Allocation (Import for High Status)

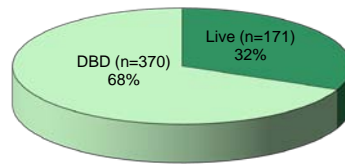

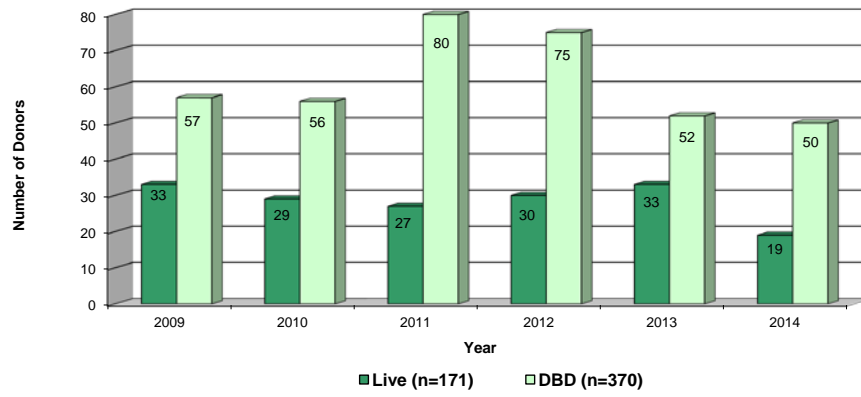

* See Appendix A for Medical Status Description

Heart Allocation (Export for High Status)

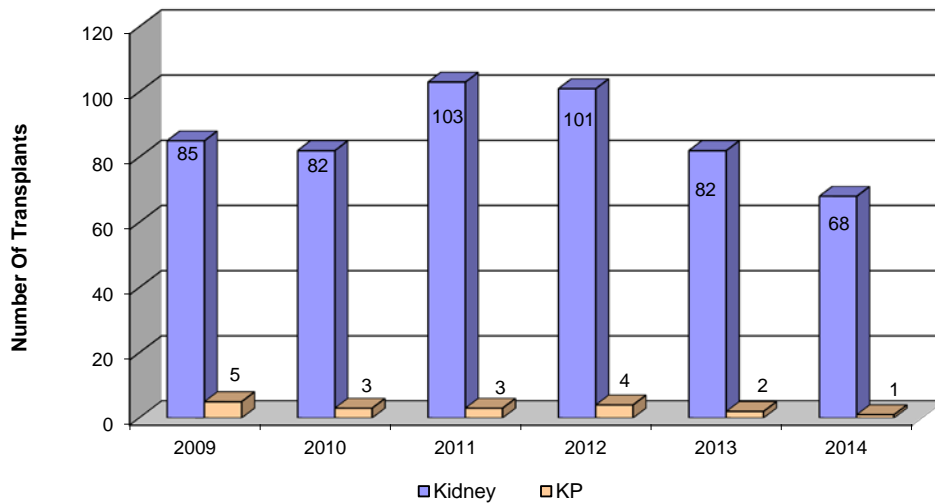

* See Appendix A for Medical Status Description

Renal Transplants Live vs DBD (n=541)

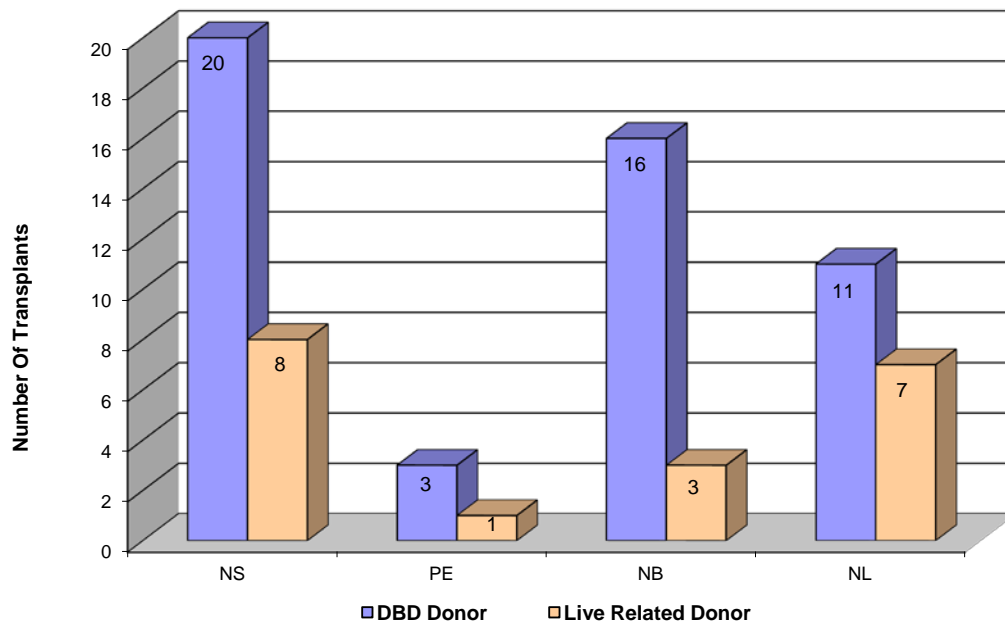

Kidney / Kidney Pancreas Transplant Services

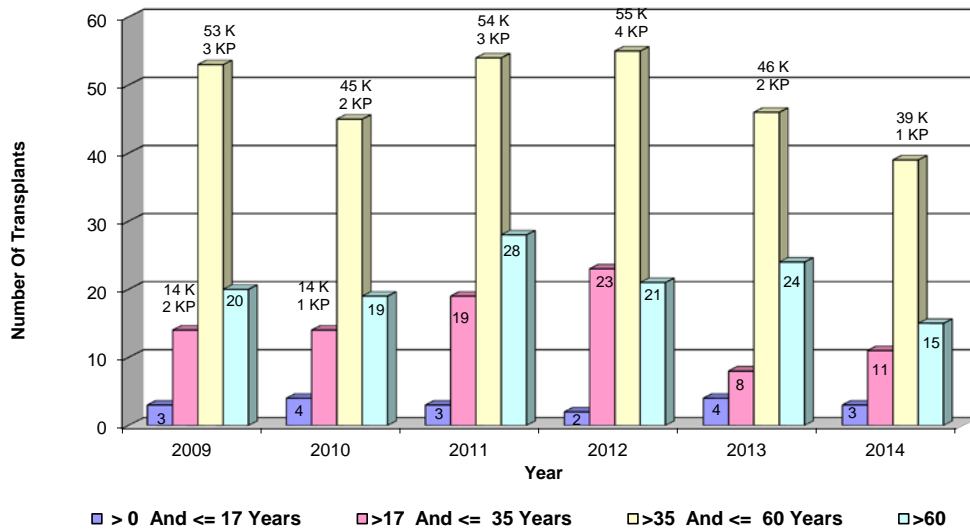

**Kidney / Kidney Pancreas Transplants
Performed for Atlantic Canada Recipients**

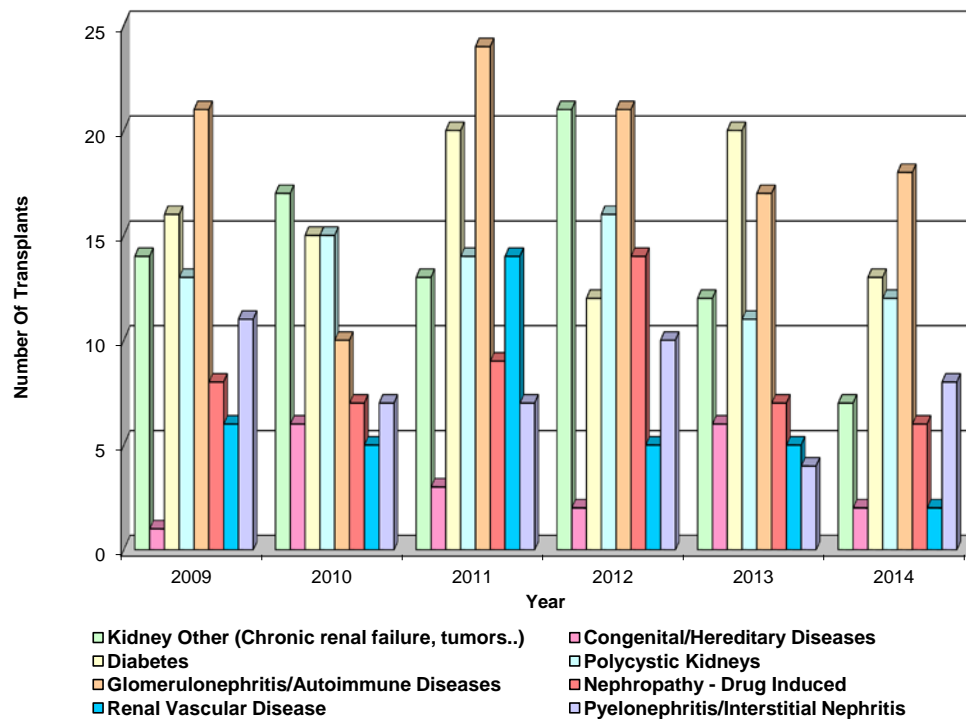

**2014 Atlantic Canada
Kidney / Kidney Pancreas Transplant Recipients by Province**

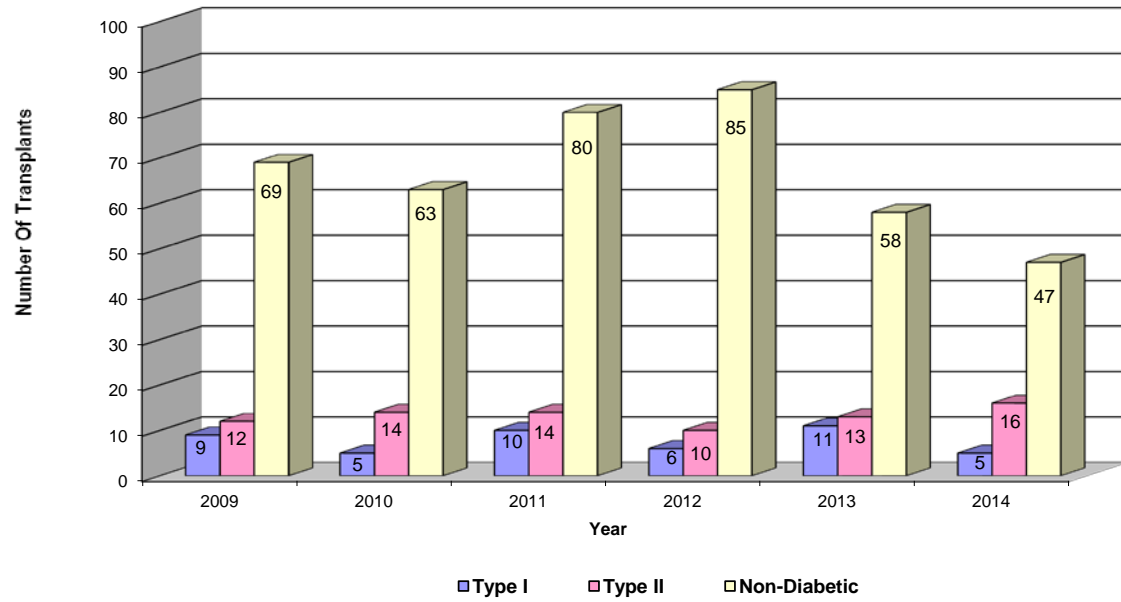

Kidney / Kidney Pancreas Transplants By Age At Transplant

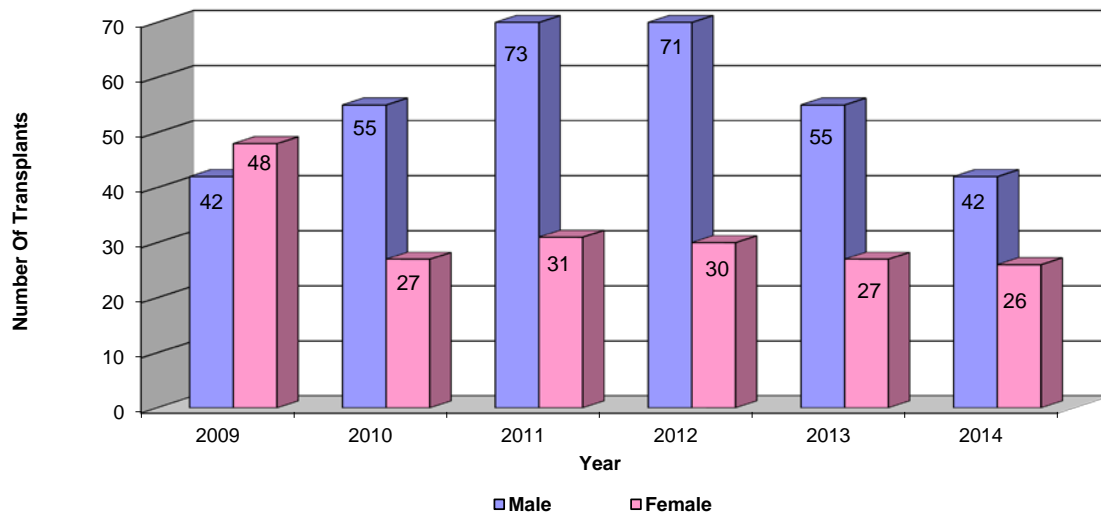

Kidney / Kidney Pancreas Transplants by Primary Diagnosis Groups

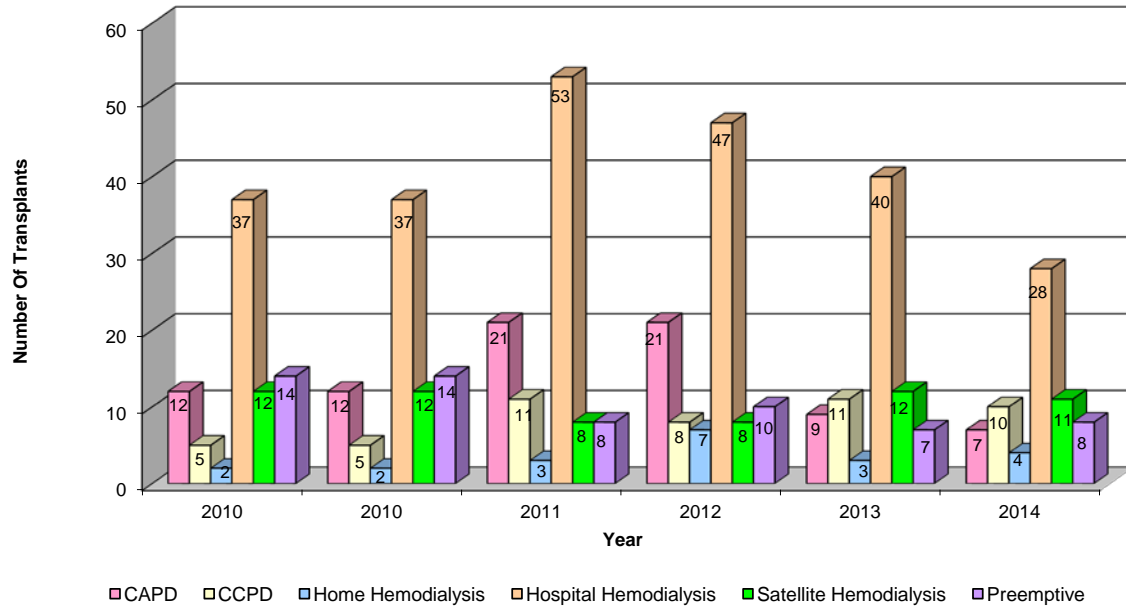

**Kidney / Kidney Pancreas Transplants
Diabetes Type I, Type II and Non-Diabetic**

Kidney / Kidney Pancreas Transplants By Gender

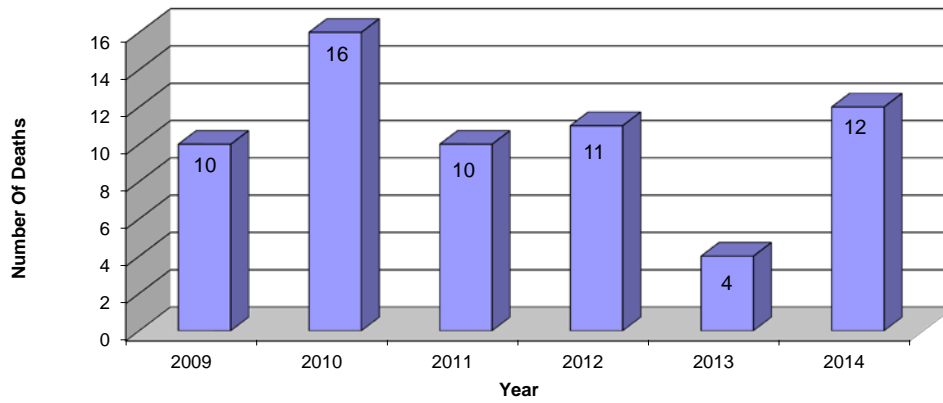

Kidney / Kidney Pancreas Transplants by Dialysis Types

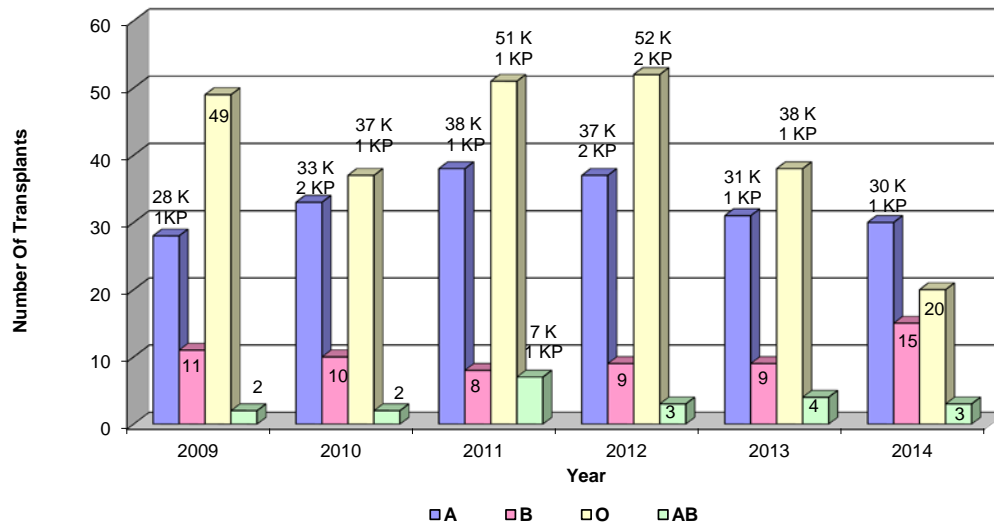

* CAPD - Continuous Ambulatory Peritoneal Dialysis

* CCPD - Chronic Cyclic Peritoneal Dialysis

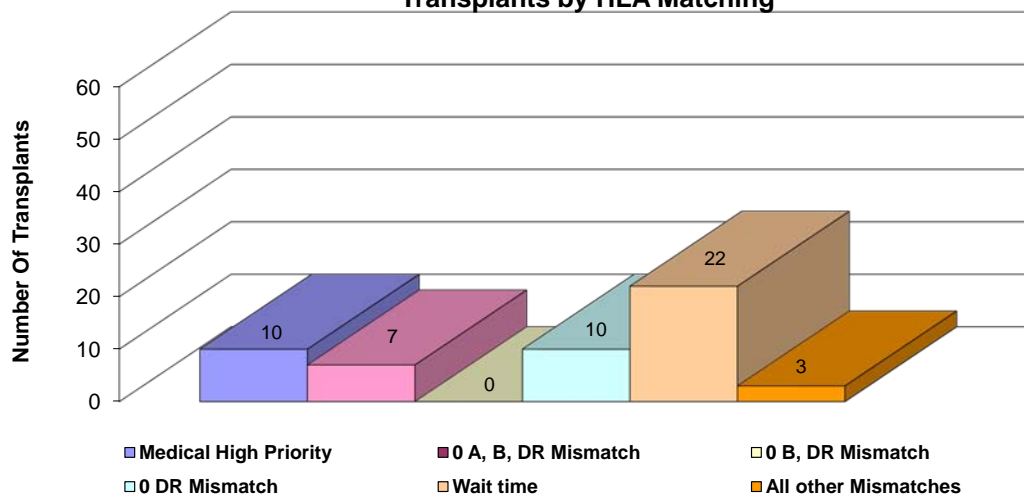

Kidney Wait List Deaths (Including Workups) in Atlantic Canada

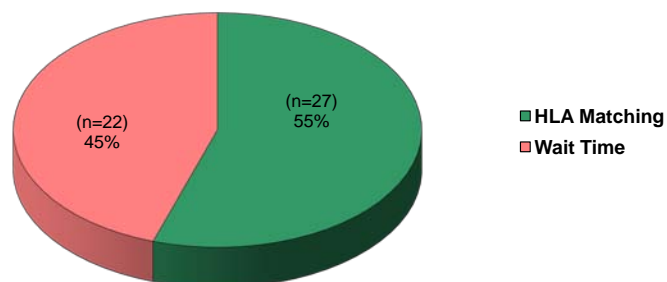

Kidney / Kidney Pancreas Transplants By Blood Type

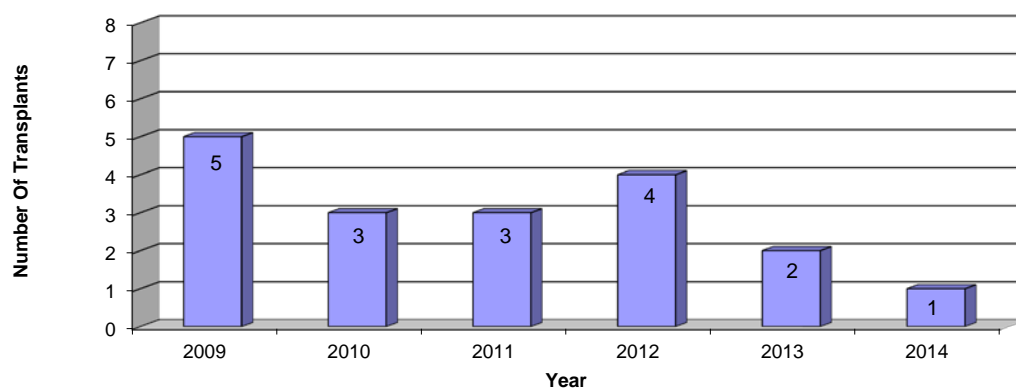

**Kidney / Kidney Pancreas
2014 Deceased Donor
Transplants by HLA Matching**

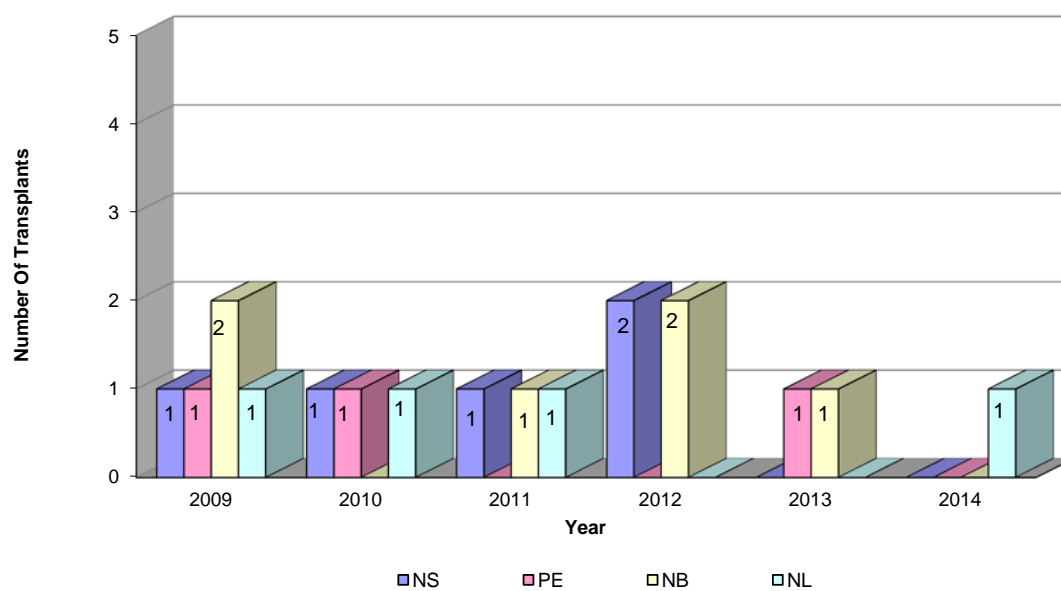

**Kidney / Kidney Pancreas 2014 DBD Donor
Transplants (n=49) by HLA Matching vs Wait Time**

Kidney Pancreas Transplants

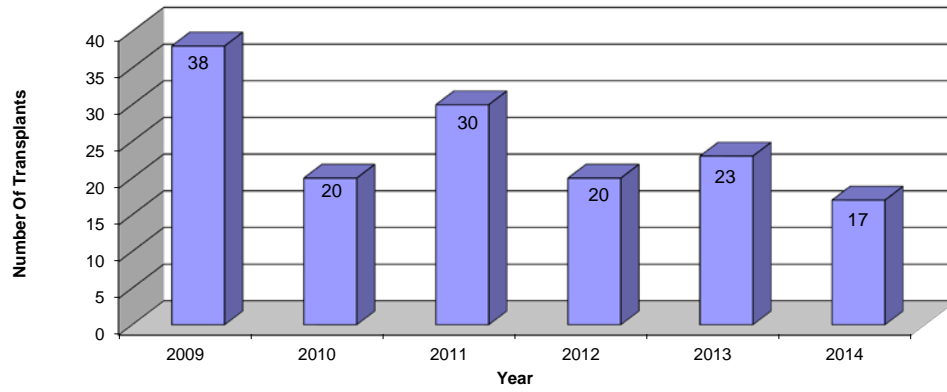

Kidney Pancreas Transplants By Province

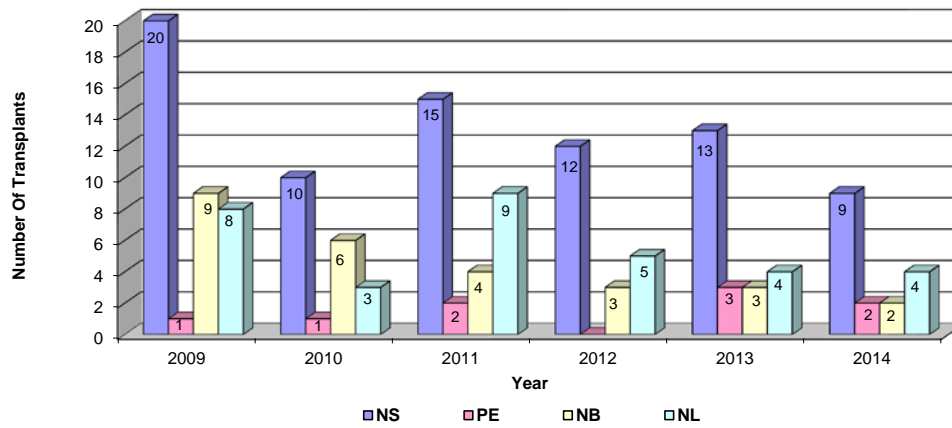

Liver Transplant Services

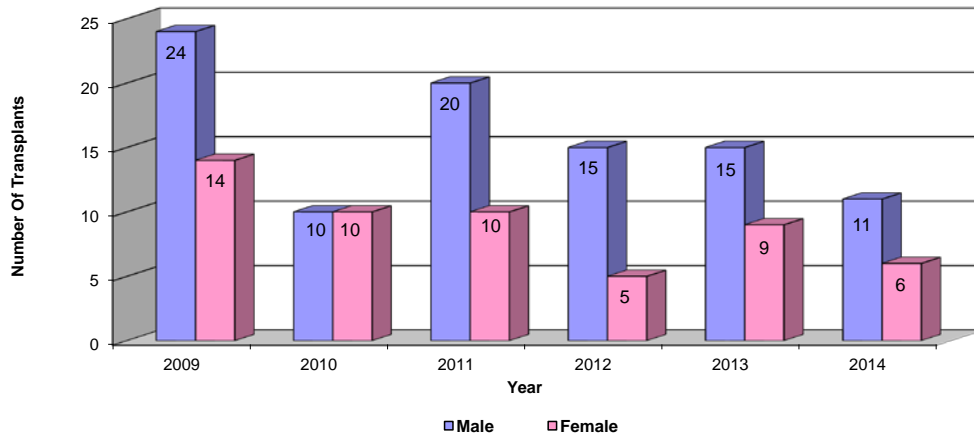

**Liver Transplants
Performed for Atlantic Canada Recipients**

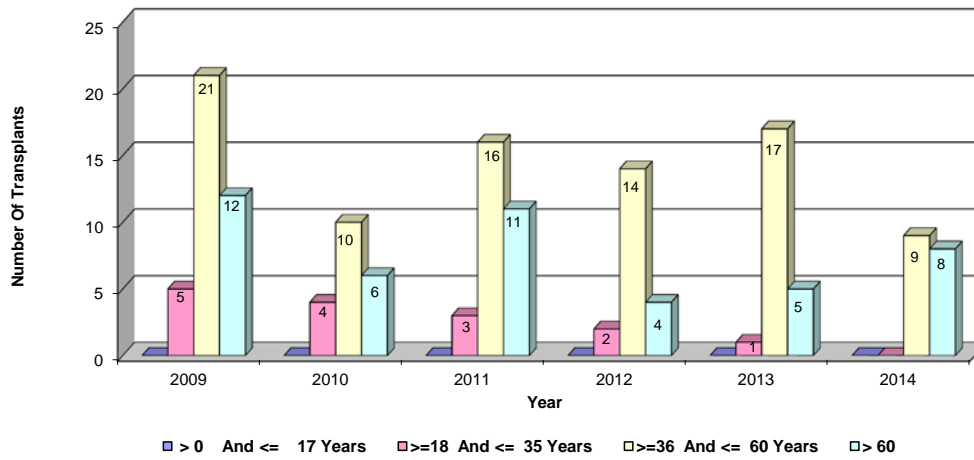

Liver Transplants By Province

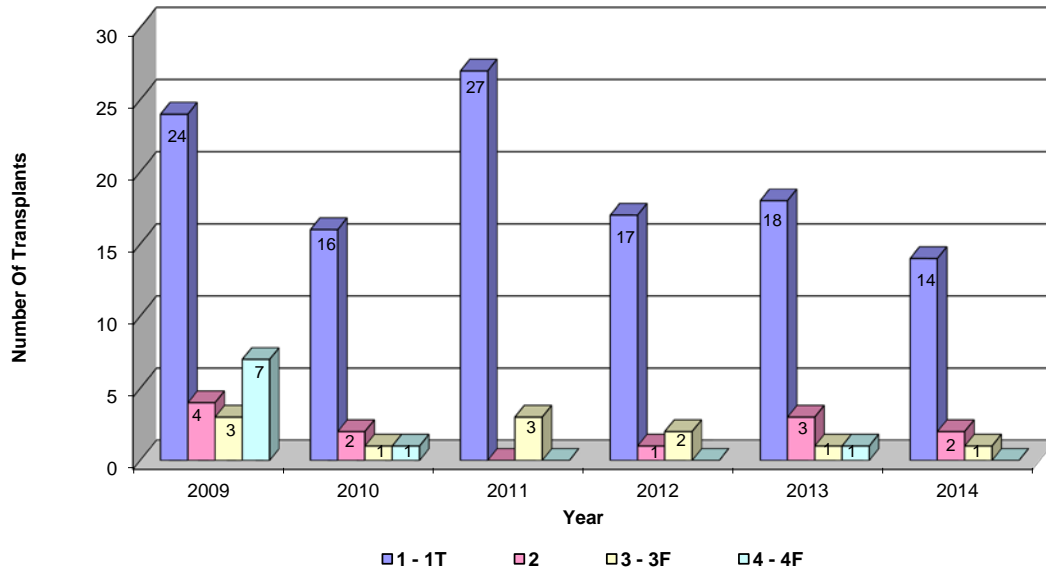

Liver Transplants By Gender

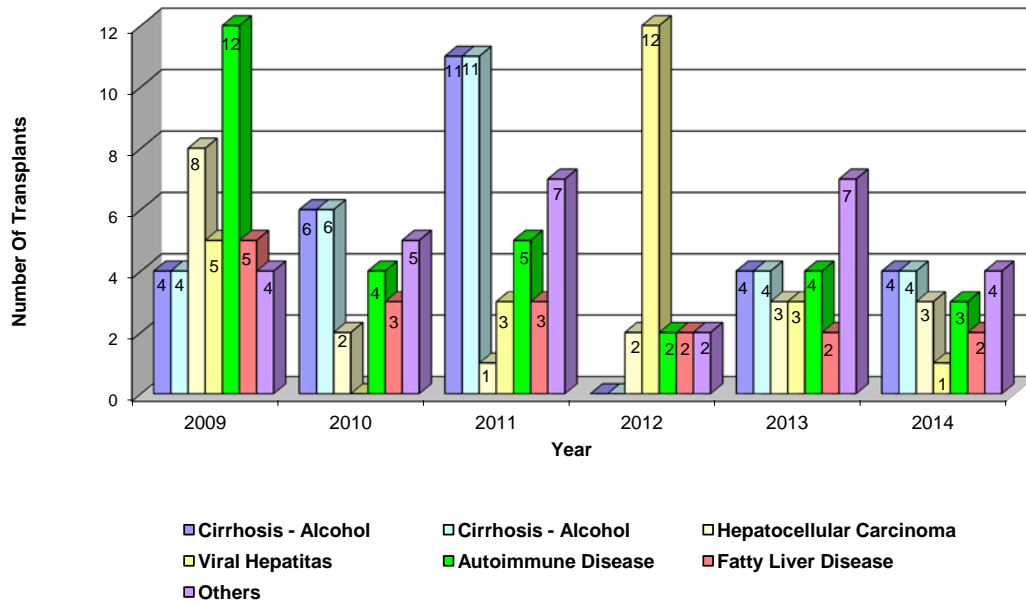

Liver Transplants By Age At Transplant

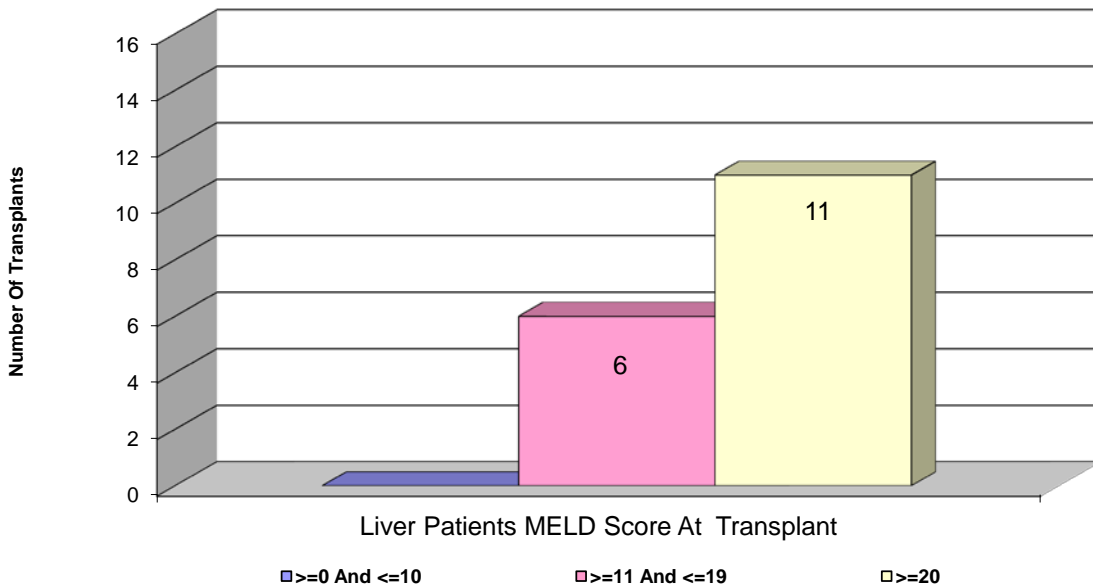

Liver Transplants By Medical Status At Transplant

Indications for Liver Transplants by Primary Diagnosis

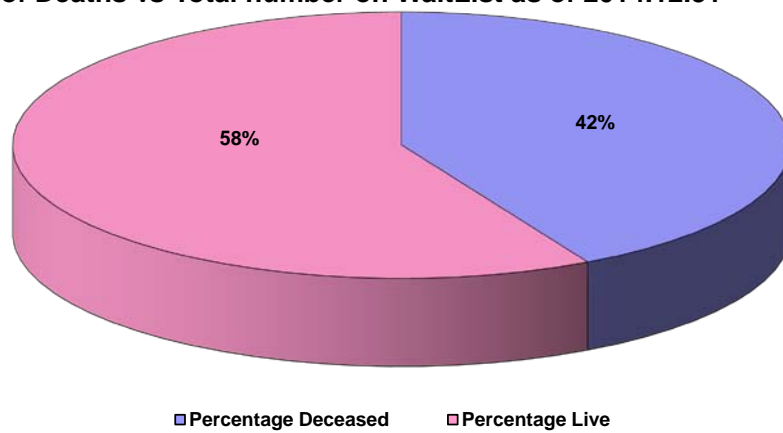

2014 Liver Patients MELD Score At Transplant

* See Appendix A for MELD Score Description

2014 Liver Patient Wait List Deaths # of Deaths vs Total number on WaitList as of 2014.12.31

Appendix A

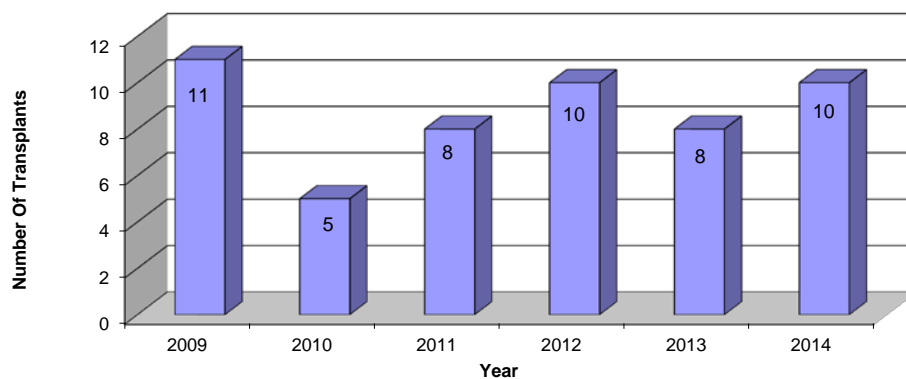

Medical Status	Liver Medical Status Description
1	At Home.
1T	At Home with a liver tumor.
2	In Hospital with stable condition.
	In ICU or equivalent care facility but not on mechanical support with either:
3	(a) creatinine >200 umol/L and / or rising by >50 umol/L per day, or (b) grade 3 or 4 encephalopathy.
3F	In ICU or equivalent care facility due to fulminant liver failure but not on mechanical support
4	In ICU requiring mechanical ventilation. Death is considered imminent without liver transplantation.
	In ICU requiring mechanical ventilation due to fulminant liver failure including primary graft non-function.
4F	Death is considered imminent without liver transplantation

MELD Score Description
<p>The Model for End-Stage Liver Disease is a numerical scale that is currently used for liver allocation. The MELD score is based on a patient's risk of dying while waiting for a liver transplant, and is based on objective and verifiable medical data.</p> <p>The MELD score calculation uses:</p> <ul style="list-style-type: none"> • Serum Creatinine (mg/dl) ** • Bilirubin (mg/dl) • INR <p>The MELD score is calculated using the following formula:</p> $\text{MELD Score} = 0.957 \times \text{Loge}(\text{creatinine mg/dL}) + 0.378 \times \text{Loge}(\text{billirubin mg/gL}) + 1.120 \times \text{Loge}(\text{INR}) + 0.643 \times$ <p>Multiply the score by 10 and round to the nearest whole number.</p>
