

2022 Year End Review

2022 Transplants

Number of Patients on Wait list as of 2022.12.31

Organ Donor Statistics

Atlantic Canada Cadaveric Donors by Reporting Province of Death

Atlantic Canada Cadaveric Donors Per Million by Province

Cadaveric Donors by Age

Cadaveric Donors by Age (in percentage)

Cadaveric Donors by Cause of Death

Cadaveric Donors by Cause Of Death (2017-2022)

Cadaveric Donor Organs Exported / Imported (2017-2022)

Liver Allocation (Import for High Status)

* See Appendix A for Medical Status Description

Liver Allocation (Export for High Status)

* See Appendix A for Medical Status Description

Heart Allocation (Import for High Status)

* See Appendix A for Medical Status Description

Heart Allocation (Export for High Status)

* See Appendix A for Medical Status Description

Renal Transplants
Live vs (DCD/NDD) (n=484)

Kidney / Kidney Pancreas Transplant Services

**Kidney / Kidney Pancreas Transplants
Performed for Atlantic Canada Recipients**

**2022 Atlantic Canada
Kidney / Kidney Pancreas Transplant Recipients by Province**

Kidney / Kidney Pancreas Transplants By Age At Transplant

Kidney / Kidney Pancreas Transplants by Primary Diagnosis Groups

**Kidney / Kidney Pancreas Transplants
Diabetes Type I, Type II and Non-Diabetic**

Kidney / Kidney Pancreas Transplants By Gender

Kidney / Kidney Pancreas Transplants by Dialysis Types

* CAPD - Continuous Ambulatory Peritoneal Dialysis

* CCPD - Chronic Cyclic Peritoneal Dialysis

Kidney Wait List Deaths (Including Workups) in Atlantic Canada

Kidney / Kidney Pancreas Transplants By Blood Type

**Kidney / Kidney Pancreas
2022 Deceased Donor
Transplants by HLA Matching**

**Kidney / Kidney Pancreas 2022 Cadaveric Donor
Transplants (n=51) Smartmatch by HLA Matching vs Wait Time**

Kidney Pancreas Transplants

Kidney Pancreas Transplants By Province

Liver Transplant Services

Liver Transplants
Performed for Atlantic Canada Recipients

Liver Transplants By Province

Liver Transplants By Gender

Liver Transplants By Age At Transplant

Liver Transplants By Medical Status At Transplant

Indications for Liver Transplants by Primary Diagnosis

2022 Liver Patients MELD Score At Transplant

* See Appendix A for MELD Score Description

2022 Liver Patient Wait List Deaths # of Deaths vs Total number on WaitList as of 2022.12.31

Appendix A

Medical Status	Liver Medical Status Description
1	At Home.
1T	At Home with a liver tumor.
2	In Hospital with stable condition. In ICU or equivalent care facility but not on mechanical support with either:
3	(a) creatinine >200 umol/L and / or rising by >50 umol/L per day, or (b) grade 3 or 4 encephalopathy.
3F	In ICU or equivalent care facility due to fulminant liver failure but not on mechanical support
4	In ICU requiring mechanical ventilation. Death is considered imminent without liver transplantation.
4F	In ICU requiring mechanical ventilation due to fulminant liver failure including primary graft non-function. Death is considered imminent without liver transplantation

MELD Score Description
The Model for End-Stage Liver Disease is a numerical scale that is currently used for liver allocation. The MELD score is based on a patient's risk of dying while waiting for a liver transplant, and is based on objective and verifiable medical data. The MELD score calculation uses: • Serum Creatinine (mg/dl) ** • Bilirubin (mg/dl) • INR The MELD score is calculated using the following formula: $\text{MELD Score} = 0.957 \times \text{Loge}(\text{creatinine mg/dL}) + 0.378 \times \text{Loge}(\text{billirubin mg/gL}) + 1.120 \times \text{Loge}(\text{INR}) + 0.643 \times$ Multiply the score by 10 and round to the nearest whole number.

Cardiac Transplant Services

Heart Transplants
Performed for Atlantic Canada Recipients

Heart Transplants By Province

Heart Transplants By Gender

Heart Transplants By Age At Transplant

Heart Transplants by Primary Diagnosis

Heart Transplants By Medical Status At Transplant

* See Appendix B for Medical Status Description

Heart Transplants By Blood Type

Appendix B

Medical Status	Heart Medical Status Description
1	At Home.
2	In Hospital.
3A	VAD or Intravenous Inotropes on ward or at home.
3B	ICU - Continuous infusion of intravenous inotropes (high dose of one or more inotropes).
4	ICU - Mechanical Ventilatory or Circulatory Support.
